Assessor Comments	Wadlawarra Grazing is offering 202, 33kg April drop ewe lambs due to strong breeding success and increased numbers. Ewe lambs showing strong shedding characteristics and sound feet. As surplus to requirements these ewe lambs have a slightly higher proportion of lambs showing light pigment peppering on the head and feet. This even draft of future breeders provides opportunity to leapfrog years of breeding and start with a base that are true shedders, easy care, docile and fertile. Lambs were affected from cow pea aphid and had a reaction approximately 40 days ago and have since recovered well. Buy with confidence in ewe lambs that will develop into future matrons.
