Assessor Comments	In the prime of their lives, these ewes will go on to perform for the purchaser, given the right conditions. They have just had the lambs weaned off at assessment and this shows with their weights. The dry season has meant these ewes are up on offer and line up well with the '20 drop ewes from the same vendor in this sale. Proven performers, they have many years of quality breeding behind them and have produced great lambing rates and exceptional 6 monthly wool cuts. M/TS and scabi, they were given their Glanery7 B12 booster prior to lambing. Purchase with confidence, they will not disappoint.
