Assessor Comments	An excellent line of vendor bred dispersal ewes. Ewes are A/M 2020 drop, Aug shorn, M&TS, Collandra North Bld. Ewes are well bred wool cutting types, vendors have been purchasing Collandra North bloods for numerous years with concentration on staple length, plain bodies and wool cut the main traits chased. ewes are scanned each year with undetectable's removed and sold to trade. Ewes are large frame and would suit either a self replacing Merino flock or joining back to terminal sire. vendor also has 225 red 2022 drops & 181 yellow 2020 to make a neat B-double load of 541
