LAF Weights	38 lambs were handled. Low: 10 kgs - High: 26 kgs - Average: 17 kgs
Notable Traits	Traits 6 Head Horns on ewes 4 Head lambs with horns

Assessor Comments	An opportunity to purchase a line of young merino ewes with a good percentage of lambs at foot. Ewes averaged 46.2kg after a big curfew and present in healthy store condition but are carrying no excess fat. but are very good framed ewes with a good skin and are running on a barley crop at present. Ewes and Lambs are up to date with all health treatments. All lambs marked and could be weaned. The lambs are good and fresh generally, with a small tail of drier lambs . Ewes are ready to be shorn, for a quick return on investment. All the hard work done , shearing and weaning would make a huge difference to these sheep. Please note , there are a couple of red tag and green tag ewes present
