Any Access To Rams or Stags?	To vendor's best knowledge, this lot has had no access to rams or stags.
Assessor Comments	Excellent quality line of NSM merino ewes Aug/Sept 22 drop. Ewes are pure Haddon Rig blood and have been annually classed by Andy Mcleod for 29 years. They are genuine large framed deep barrelled heavy cutting ewes and are a direct result of a fantastic season. This represents a rare opportunity to acquire a large line of one mark ewes which would generally be filtered into the vendors southern farming operation to go into a terminal sired program. A change to shedding operation on one of the southern farms has brought these ewes to the market. Flock avg is 7.8kg and 19.2-19.7 micron. They stand in prime condition even as a group. Please call for further information.
