Assessor Comments	These 2.5 y/o ewes present in a strong store condition and are on the improve after shearing. They had solid crossbred lambs weaned only 7 weeks ago and put a lot into them. There was 10% tail removed at assessment. They have proven to be good mothers and produced a nice bright 19 micron fleece on top of the lamb. They would suit a crossbred breeder and have all their lives in front of them. They are definitely on the up on good clover and rye grass.
