Joining Details	Not Station Mated
Any Access To Rams or Stags?	To vendor's best knowledge, this lot has had no access to rams or stags.

Quality Grades	
Very Good	100%

Assessor Comments	Excellent quality line of NSM Poll Merino ewes. Ewes have very good genetics bred into them with the Cusack family annually acquiring rams in the top 50% of the Bundilla ram sale. They show good conformation and type and would be equally suited to a merino or terminal sire. They will mature into heavy cutting large frame ewes. These are bred from a high fertility flock (vendor weaning 130-140%) and will continue to carry the same performance if given the opportunity. Flock carries great growth with the wether portion of these ewes finishing at 65-70kg avg at 11 months of age. Front paddock ewes with an excellent reputation. Please call for further information.
