Assessor Comments	An good quality run of 162 Hazeldean NSM Merino ewes. Ewes are 2 years and present in very forward condition. Ready to join to the ram of choice with all the genetics from the breeding program at Hazeldean. MN3-V status and April shorn. These ewes would be a good opportunity to get some high quality Merino genetics bred under tough commercial conditions at Myalla. This lot represents the 2 year old ewes that came to lamb marking without lambs with a tail removed at assessment. Ewes have all been scanned in previously and would have lost lambs during the cold Monaro winter. Please note: Agent can arrange freight to most areas including Riverina with weekly market trucks to Wagga.
