Assessor Comments	A quality line of vendor bred June/July 2023 drop ewe hoggets from Amerylla Props. An excellent line of future breeders, that are usually at the top echelon of the breeders sales each year. They are based on Gunallo bloodlines, which the vendor has been on for a number of years. They weigh in at 63.5 kg curfewed, and are unmated, ready to take a ram of your choice. Post shearing in August they have a range of 15 mm - 20 mm of wool on them with clean white skin. Quite a number still have their lambs teeth, with the balance in the process of cutting their two teeth now. Please note, there are a handful of stubby horns in the mob. Great quality future breeders for this season. presenting in very forward condition and generally of large frame.
