Assessor Comments	Quality genuine line of 2020 drop ewes from this vendor. With over 50+ years of pure poll merino breeding, these ewes show the stringent breeding practices of this vendor. Producers of quality white wools, they possess large frames as well as the good bone and structure that the wheatbelt region of WA is renowned for. They averaged 110% lambing this year with the dries taken out at scanning this year, and the lambs were weaned 3 weeks prior to assessment. Low stress sheep handling has been used with this flock for the last 5 years with no dogs used on the property. They would be ideal for the astute merino breeder or for a crossbred operation. Please note vendor has another line of 1.5yo ewes being offered in this sale.
