Assessor Comments	Genuine breeding line of 2.5yo ewes from the Mukinbudin area of the eastern wheatbelt. Good medium to large framed ewes which achieved their first lambing this season. Plain bodied ewes based on Calcalling Poll Merinos , this flock has been unmulesed for the last 7 years and these ewes will improve on quality feed. With their whole breeding life in front of them, they will grow into a quality line of large framed ewes and produce quality white wool. They would be suitable either for the astute merino breeder or a crossbred enterprise. Please note this vendor has other lines of ewes in this sale.
