Assessor Comments	Offering 610 NSM Merino ewes. These ewes averaged 56.7kg live at assessment and are the full group of 2021 drop females. The ewes were shorn in early August and had lambs weaned off them at the same time. The ewes are genuine breeders that were all SIL each year with no empties retained in the flock. The ewes range in condition but are being supplemented with dry lick and recently trail fed faba beans to prepare them for joining on a stand of poor-quality dry grass available. Don't miss this opportunity to purchase a 6 deck line of medium to large frame ewes that would ideally suit a self replacing Merino flock or be joined to terminal sires. Please note there are another 8 decks of 2022 drop ewes from the same vendor in the sale.
