Assessor Comments	A good tidy line of 80 first cross ewe hoggets predominantly 3 and 4 scores that have been guidar vaccinated and have a 4 month jacket on them that is on the finer side of xb wool .This line of ewes are the seconds (220 tops in the same sale today) but would still be a great acquisition to any intending purchaser wanting to top up their existing ewe numbers . These sheep have always performed well over the years so buy with confidence
