Assessor Comments	A great line of 220 vendor bred first border merino cross ewe hoggets that have been guidar vaccinated. These ewes are predominantly 3and 4 score that have a exceptionally fine xb wool staple that make shearing a slightly more profitable exercise . The ewes have great body and are showing plenty of typical first cross traits due to their breeding . The ewes have good bloom and are ready to take the ram of your choice . Whilst the prime lamb market is showing great resilience the opportunity to purchase young ewes with their life in front of them has never been better .. Note there is 80 of the seconds (55 kg ave) of these ewes in today's sale also ..
