Assessor Comments	July & August 2023 drop Nudie ewes. The Stephens family have been breeding Nudie sheep for 6 years. having sourced the original breeding flock direct from the Low Footprint Nudie stud. Every ram purchased is selected on Black feet, structure & shedding ability. The Low Footprint studs breeding objective is to breed robust, easy-care sheep that are worm resistant and resilient, can survive and produce in high rainfall zones. To the Stephens family fertility is high on their breeding objectives, and thus only join for 5 weeks. Due to a high marking percentage and tough seasonal conditions a surplus of breeders are being ofered for sale. Ideal ewes that are a perfect way to get into the shedding breeds or to top up flock numbers. Please note: Vendor is offering another 2 lines in the same sale.
