Any Access To Rams or Stags?	To vendor's best knowledge, this lot has had no access to rams or stags.			
Assessor Comments	2020 & 2019 drop Nudie ewes. The Stephens family have been breeding Nudie sheep for 6 years. having sourced the original breeding flock direct from the Low Footprint Nudie stud. Every ram purchased is selected on Black feet, structure & shedding ability. The Low Footprint studs breeding objective is to breed robust, easy-care sheep that are worm resistant and resilient, can survive and produce in high rainfall zones. To the Stephens family fertility is high on their breeding objectives, and thus only join for 5 weeks. Due to a high marking percentage and tough seasonal conditions a surplus of breeders are being offered for sale after having their lambs weaned off. Ideal ewes that are a perfect way to get into the shedding breeds or to top up flock numbers. There are 21 ewes that were missing tags at assessment these ewes all have sound mouths. Please note: Vendor is offering another 2 lines in the same sale.
