Assessor Comments	Annual sale of the Radnor April/May drop commercial ewe hoggets that are normally sold privately for the last 20 years but are now available to purchase due to a restructure of the previous buyers farming enterprise. Radnor are well known for producing large frame, stretchy sheep whilst maintaining a flock average of 19.5 micron. MN3 and with their whole breeding life in front of them these ewes would be a perfect add on to any flock or a great starter mob. Shorn and ready to go, just put some rams with them and reap the rewards. Note there is a line of older ewes up for sale also.
