Assessor Comments	A exceptional line of 2.5 and 3.5 year old Leachim bld ewes. These large frame Mid North ewes will not disappoint with vendor weaning 130% xbred lambs this year. These ewes have also been very productive in the wool department as well cutting a consistent 5.5 -6 kg of deep crimping and soft handling wool with lots of nourishment. The lack of rainfall this year has meant purchasers have an excellent opportunity to purchase young breeding ewes that will fit into any operation.
