	The cattle in this lot handled very well through the yards during the drafting and assessing process. The heifers in this lot listed as slightly stiry are not aggressive although they are uneasy when singled out and excess pressure is applied. Once these heifers are released back into the mob environment the settle quite quickly.		
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses		
Assessor Comments	An opportunity to purchase a line of high grade HGP treated Brahman & Brahman cross steers. The steers in this lot will present in store condition offering plenty of compensatory weight gain as well as standing on good frame that will allow these steers to grow through to heavy weight grass or grain finished bullocks. These steers all handled through the yards during the assessing & Drafting process with ease. These steers would normally be retained by the vendor and grown out to heavy kill weights but are being sold to allow the vendor to sure up feed for breeders as the seasonal conditions tighten in Western Queensland. These steers will not disappoint. Please not this vendor has another line of heifers in the same sale.
