Heifers were good to handle during the assessment. The odd heifer stirred up when seggrated in the pound, however settled once returned to the mob.

Assessor Comments

A nice line of Santa and Santa sired Heifers that have been on a silage based grower ration (40% silage) for the last 22 days. Heifers on a rising plain of nutrition and present in good store condition. The odd heifer was noted at assessment to have old pink eye scarring. Please note the same vendor has a sister line of heifers offered in the same sale that would make a neat two decks.
