Handled With	heifers were good to handle & draft. heifers are accustom to being handled, this is evident through their temperament. Aerial (Helicopters, gyro's and planes) , Bikes		
Assessor Comments	On offer are 30 soft crossbred heifers averaging 449.4 kg live at assessment. These heifers are bred from a composite base cow herd sired predominantly by Angus and Shorthorn bulls. They are in forward condition running on native medics and clovers. These heifers are powering ahead and would do well in a feedlot or are feminine enough to be joined and retained as breeders. They are quiet to handle as they have had plenty of experience through out the yards and are frequently handled in the paddock on bikes. Quality NSM heifers on the do, buy with confidence.
