Assessor Comments	A good line of NSM Angus Heifers. Proudford Agriculture Co have been purchasing bulls off Reiland Angus Stud for the past 15 years, their focus has been on positive fat, low birth weight and 600 day growth. They use an AI program as well as natural matings to maximise the genetic gain of the herd. These heifers present in a forward store condition. They would be ideal to feed as they are bred to preform, the Proudford cattle are sought after by major feedlots in NSW & QLD. They would also be ideal heifers to breed. Heifers all weighed over 295kg at assessment and being 12-14 months of age they are ideally suited to the spring joining program.
