Vendor Comments

They have been yard weaned and have been fed pasture hay and silage during winter. They will fly in a feedlot situation because they are used to the concept.

Slightly Stirry: 8 head

Very easy cattle to handle and work and they are easy to move around the yard. the odd one wanted to jiggle a bit in the crush however the majority entered and stood waiting for their weight to be taken.

Assessor Comments

Perfect cattle to go on feed or feed on in the paddock as they have been educated to enclosure feeding with silage and pasture hay through winter. They are part of rational grazing patterns and will jump away on good feed. All the hard work is done so just sit back and watch them grow. Brother at a different set of yards are also in this sale making a neat 2 deck load.
