The Heifers were really gentle to draft and pen up. They penned up well and flowed up the race nicely. The few that were not settled in the crush settled quickly once returned to the main mob. They have been very well handled by the vendor with horses, bikes and dogs and have been mustered and moved a number of times since being weaned. They are a lovely quiet mob to walk through and take phots with no sign of panic or flight.

Handled With: Bikes , Dogs , Horses , On foot

Assessor Comments: A nice line of quality cross bred heifers. They have a strong influence of Droughtmaster with the added Euro softness. These heifers would suit growing out as feeders and also have enough quality and genetics to make future breeders with a large %of polled heads. they have been pretreated on 8/10/24 with Starmec injectable. These heifers will explode on a bit of fresh feed no mums milk left and all frame.
