Assessor Comments	A good to very good quality line of vendor bred heifers. They are soft British/Euro/Bos Indicus crossbred heifers, sired by Nindooinbah Ultrablack & Angus bulls, as well as a Brangus bull. The heifers have not had access to grain or cotton seed and are eligible for pasture fed markets. They would suit to put directly onto feed for a range of high quality domestic markets. Alternatively the top 40% would suit as very good quality future breeders. Yard weaned in July onto good quality oaten hay and moved to oats paddock after 10 days, they will remain on oats until delivery. One heifer with slight blue eye scarring in one eye. All heifers were preg tested empty by a vet 09/10/24 (certificate available). Heifers are very growthy cattle that are exhibiting good weight for age. Please note that vendor also has the brothers of these heifers in this sale.
