Assessor Comments	Very well bred Angus steers that have performed very well in feedlots over the last 20 years. Steers will respond to quality feed and only show light fat cover. Steers stand on good bone and show good confirmation. These steers will gain weight quickly in the right regime. Both drench and Vaccinations are up to date. 3 steers noticed with scaring in eye, steers show			

vision in crush. These steers were weaned early and have been run at high stocking rates. 10 steers show small amount of wart.
