Handled With	Steers are free flowing & handled well on assessment moving through yards with some wanting to push & jump around on scales but settled as they were back in the mob. Brought up by single handler with no troubles at all. Steers with more handling will no doubt quieten down in time & I wouldn't hesitate sending these steers to any of my clients. Bikes , Dogs	
Notable Traits	Traits 2 Head Old pink eye (5cent in size)	
Assessor Comments	Outstanding run of Angus steer weaners sired by Ardrossan, The Glen & Reiland Angus Bulls. These steers present a great opportunity to put together a b-double load of steers to take on & target any market being bred out of a herd of large framed Angus cows that have the scope to no doubt not disappoint going forward on either grass or grain. With an emphasis on targeting above breed Av in the Angus breed targeting positive rib & rump, IMF & EMA. Steers are highly sort after by major feedlots and have performance to back them up. Please note 3 Black Baldys with the option to leave out.
