Assessor Comments	A genuine opportunity to purchase a very good draft of Vendor Bred Angus Heifers that are usually kept as breeders in a self replacing herd. The Male family are only selling these heifers due to been surplus to requirements as they have reached there targeted breeding herd number. The Kland herd is purely 100% based on "Scotts Angus" blood and for many years now have purchased the top leading sires and have worked extensively on improving the genetics and breeding of their herd. These Heifers are genuinely only 14-15 months presenting in forward/store condition and are bred from very good large framed Angus Cows. These cattle would make excellent future breeders and would suit the most discerning buyer. Cattle come with the agents highest recommendations.
