| Breeds      | Sire      Dam<br>13 Head    Angus    Angus                                                                                                                                                     |
| Ext. Breed  | Out of Large framed breeders purchased as PTIC, Ex Clear Springs Pastoral (Jindera). Pure Rennylea Angus blood. With a small number of steers purchased from Tasmania as young calves on cows. |
| Horn Status | 13 Polled                                                                                                                                                                                      |
| Age         | 13 - 14 Months<br>Age Breakup: August - September<br>Drop.                                                                                                                                     |

Quiet young steers to handle. All leading up the race well, handling pressure and standing sensibly on the scales, just a couple that were a bit anxious, doing some rocking & weaving, listed above as slightly stirry. Quiet to walk amongst in the paddock for photos/videos, and will only get better with age & handling.

Handled With Bikes , Dogs , On foot , Vehicles

Notable Traits

Traits

1 Head Eye Blemish  
4 Head Ringworm  
1 Head White forward of the navel

Assessor Comments

Nice little even line of young Steers. Pure Rennylea Angus Blood, bred from Large framed, Clear Springs Pastoral Cows. Steers are long bodied, with a good, round backend, and plenty of depth. Steers that were given time to grow out and mature on improved pastures before starting on a light feed ration. This makes all of these steers bunker trained and ready to continue on the feeders, or background on some Spring pastures.
