	Very placid natured young steers, all very well behaved throughout assessment, Couldn't be faulted. Cattle that could be handled by a stock person of any experience.		
Handled With	Bikes , Dogs , On foot , Vehicles		
Assessor Comments	Very well started young steers. Bred by the vendor, reared on the bucket until 8 weeks, then on the pellet feeder until 12 months. Giving them every opportunity to get the best start possible with no backward steps. These steers have really started flying ahead in recent weeks with the warmer weather starting to appear and will continue to go forward with the season.
