Assessor Comments	A top quality line of vendor bred angus weaner heifers. These heifers have been weaned for months and present in store condition off coastal country which are sure to thrive on any pastures. Will be ideal future feeders for either the domestic woolies and coles job or would suit a long fed straight black feedlot job but ideally these heifers would be perfect for future breeders as they are sired by stud angus bulls. The vendor is well known in the South East for having quality cattle which are well handled with a great temperament. Please note a couple of weaners are showing warts on the neck but this is not detrimental. Vendor has pretreated heifers and will guarantee clearance, but it is at the buyer's expense, The vendor also has the steers in the sale as well.
