	Generally good to handle in the yards and through the race and crush. Five heifers were agitated in the crush and would not settle during assessing. They were fine when they were back in the mob in the yard.		
Handled With	Bikes		
Assessor Comments	A good to very good quality line of weaner Angus heifers. With medium to large frame they suit to grow to heavy domestic feeder weights and then grain, grass or crop finish for a range of high quality markets. They were yard weaned in July and have had there first vaccination of 8 in 1 and Bovilis MH + IBR. Three heifers noted with slight ring worm hair loss on face and neck which is growing back.
