	Typical of station cattle. Steers could tend to stir up under pressure in crush, but generally I did not find them aggressive and with appropriate handling should give no problems to any experienced stock person.

Assessor Comments	A very even draft of Yammatree feeder steers that weighed between 360-400kg. Ideal steers to go onto grass or into a feeding program as they have proven performance from many feedlots across the eastern states. Grass fed and antibiotic free. There is another 225 heavier steers also in todays sale.
