Typical of station cattle. Steers could tend to stir up under pressure in crush, but generally I did not find them aggressive and with appropriate handling should give no problems to any experienced stock person.

Assessor Comments	Great opportunity to put together 225 Yammatree feeder steers into a feeding program that have proven performance from many feedlots across the Eastern states. To be sold in three evenly split runs out the gate of 75 head. These steers have a lot of frame and are really in spot on condition to feed and should absolutely fly once introduced into a feedlot or grass program. Grass fed and antibiotic free. There is another 46 lighter steers also in todays sale.
