Steers were generally good to handle. They are run in big mobs and respected handlers when required. They flowed freely through the assessment process. Some didn't appreciate the confinement of the race or crush but were quick to settle upon departure.

Handled With: Bikes , Dogs , Vehicles

Notable Traits	Traits
1 Head	White patch on or around flank to pizzle

Assessor Comments	Well bred line of vendor bred Steers. Steers exhibit plenty of frame and carry a clean bill of health. Steers represent the middle run of a large run of steers and were all weighed in a tight group of 320-371kg at assessment. Post weighing any off types were removed from this group to present an even line of 93 steers to be offered. They are sired by predominately Gilmandyke Angus bulls. Buy with confidence. Steers were recently drenched and in this short time have achieved close to 1.7kg average daily gain since being drenched. Please call for further information
