Assessor Comments	An even line of Angus heifers that have been selected for someone to have the ability to be joined for a spring mating. There is a large emphasis on having quiet cattle in this management program and these heifers are exactly that. In the last month the heifers have been putting on over 1.5 kgs per day with the best doing 2.2 kgs per day. You can see this in the cattle with most calves starting to lose their winter coats and freshen up. This line of calves were weighed from 290 kgs and up giving the successful purchaser enough confidence to be of weight by early November for joining. There is a few heifers that have pink eye scarring that are unphased by this. Please note there is an additional line of 17 Heifers offered in the same sale.
