Heifers worked through excellent facilities and came off weighing platform showing no flight issues. No noticeable temperament issues. Cattle are observed as well handled and proper quiet. A couple of heifers stand alert when in the mob. Moved off through gateway steadily.

Handled With	Bikes , On foot
Assessor Comments	17 vendor bred heifers weighed full straight out of paddock to average 372kg. Range 321kg to 436kg. Had two 7 in 1 vaccines. Heifers show good growth for age body type and bone structure with no notable faults. Heifers display good mobility and sound feet. The odd heifer has a few warts around face and eye area, numerous bush flies active and one heifer was treated for a weepy eye with Terramycin. Most stock have lost winter coat and a few still carrying rough loose hair. This line of stock are the right weight and age to join up and will be good quality Angus breeding stock. Vendor states no bulls been with heifers. Suitable to grow on and further condition for butcher type stock. Vendor has used local Ascot stud sires and has produced very good quality stock. Angus bulls used in herd to produce the heifers Ascot S408, & Ascot Terminator T332. Bred in a herd of good quality commercial breeding cows.
