	Steers worked through excellent facilities and came off weighing platform showing no flight issues. No noticeable temperament issues. Cattle are observed as well handled and proper quiet. Moved off through gateway steadily as released from handling area.
Handled With	Bikes , On foot
Assessor Comments	18 vendor bred steers weighed full straight out of paddock to average 380kg. Range 325kg to 435kg. Steers show good growth for age body type and bone structure with no notable faults. Steers display good mobility and sound feet. The odd steer has a few warts around face and eye area, numerous bush flies active. Two steers noticed with blue eyes from previous blight. A couple of steers have lost tail brush. Most stock have lost winter coat and a few still carrying rough loose hair. Steers have had two 7 in 1 vaccine treatments. These steers are very suitable to keep growing out for heavy Angus feeders and suit further conditioning as butcher type stock. Scales tested ok prior to assessing.
