Assessor Comments	28 Vendor bred EU accredited Angus Sired steers. Steers present in plain store condition, considered frame for their weight. Considerable compensatory weight gain would be expected with a improved nutritional intake. Steers are beginning to clean up in their coats. Steers received their initial Bovilis MH+IBR vaccination early June, bottle details in photos. All steers were mouthed at assessment with 9 steers still having milk teeth, balance cutting 2 teeth. Sale of steers due to deteriorating season conditions, steers would generally be retained and taken through to feeder weights. Note - Steers will be available for delivery from the Armidale sale yards from Tuesday 29/10/24. Steers will remain at saleyards until delivered, being fed daily at purchasers expense of \$5.50 per head per day.
