| | Heifers were good in the yards, a couple stirred up a bit when being mouthed, but quickly resettled | | |

| Assessor Comments | A smaller line of heifers that have had a tough winter and would appreciate improved nutrition. These heifers have improved in the last 5 weeks after a move to fresher feed and the Multimin and I feel there would be a fair bit of compensatory growth to be had in these Heifers. The 6 oldest looking heifers were mouthed, with 4 being fresh 2 tooths and the others being milks. The balance of the heifers were younger. |
