|                        | A very good line of cattle to handle, if anything have to be pushed to move paddocks. Couple of heifers did get a bit impatient in race to crush and were keen to leave yards. Otherwise a pleasure to work with.                                                                                                                                                                                    |      |                         |                |

| Assessor Comments      | Quality bred Complete drop of Angus and Angus X Heifers from Springbank Coolac. By Rennylea and Bongongo Sires. Ideal quality to retain and join or suitable to finish on feed. Heifers have grown out nicely and offered only as season conditions deteriorate. Some warts and pink eye scarring that have are cleaning up and not considered detrimental. 6 heifers under 250kgs removed from mob. |      |                         |                |
