	Heifers were commendably well behaved throughout assessment. They have had only very minimal handling since weaning back in March and were all exceptionally well mannered. Brought up from the back yard by a single handler, leading through the race without hesitation, standing quietly on the scales and exiting at a walk. They were a bit more anxious in the laneway when let out for photos, this will just be down to lack of handling. Very sensible heifers that will only improve with education & age

Assessor Comments	Hillgrove Star Pastoral offer a very nice line of EU/Never Ever accredited Rennylea & Te Mania Angus blood Heifers. Heifers that were weaned in March, put out on a rocky hill paddock at the foot of Mount Mittamatite, and left to work it out themselves in what was a very tough Autumn/Winter in the Upper Murray. They have since been moved onto a fresh paddock of Clover & Rye, were brought in and weighed 12 days prior to assessment & have been averaging 2kg/day since. These heifers are freshening up in the skin & coat and are well on the do. These heifers would be an ideal line of fresh, well bred females to background over the Spring/Summer & target a feeder/Supermarket program with the genetics & reputation to back them.
