Notable Traits	Traits		
	1 Head Larger white mark in udder area to flank (see photo)		
	9 Head Small white mark in udder area		
Assessor Comments	Genuine young (3 to 6 years) PTIC Angus cows that are due to start calving in December 2024. These cows are only being offered for sale as their calving is out of sync with our vendors "normal" calving following the 2023 bushfires. Our vendors have been securing quality lines of Angus heifers for a number of years, which these were part of, to join and add to their quality Angus breeding herd. The cows are well handled and provide a great opportunity to secure proven breeders with good bloodlines behind them.
