Assessor Comments	A very nice Quality line of big framed Angus PTIC Cows Calving November through to December. Cows were purchased locally from Girrahwean Pastoral Co at Golf Creek north of Barraba in late August for a trade to calve down and possible split or sell as a cow and calf unit but an unfortunate change in circumstances see's them getting sold early as PTIC units calving in the next coming months. Cows were joined to very good quality Te Mania, Wooronga and Farrer Angus Bulls and the previous owner noted that you be disappointed with the calves. Cows have great Temperaments and were no fuss to handle and process. A great opportunity to get into quality females that are calving just around the corner, prefect articles to top up any angus herd or treat as trade split option for next year keeping in mind one cow was 896 kg and the mob avg 677 kg at assessment. Don't miss !!
