	These young cows were very good to handle and moved through the yard system without fuss. Only a couple of them became restless in the crush area but nothing aggressive or agitated.

Assessor Comments	A smart line of young Angus cows PTIC red tags to Te Mania and Hazeldean bulls. The cows were purchased from a Dubbo breeder with calf at foot and rejoined for a month before purchase to high quality Te Mania Angus bull. The vendors introduced a Hazeldean Angus bull when the cows arrived. These young cows are 4-6 months in calf being tested only a few days before assessment. They were good to handle through the yards. The majority are medium frame, forward in condition and good quality. They weighed 614kg ave at assessment after an overnight lockup. There are a couple of cows showing a slight bos indicus influence certainly not detracting from their quality or performance. They are lovely young cows pregnant with an Angus calf ready to go on breeding for a number of years yet. Purchasers please note there are 2 other lots this vendor , same sale.
