Assessor Comments	A nice line of one-mark, beautifully quiet tempered, MILLAH MURRAH blood Angus first calvers. These heifers are developing well, exhibiting good frame & producing plenty of milk, which is evident in the sappy TeMania Angus sired calves at foot. These heifers have been running continuously with the TeMania Angus bulls since calving, however continued joining would be advisable due to the young age of the calves. Presenting in fresh condition, these heifers are just starting to clean up in the coat with the warmer weather. These heifers are demonstrating good maternal traits for their first time around, mothering up immediately when reunited with their calves after assessment, for the photos. A great opportunity to secure quality young breeders which have calved unassisted with ease, with top quality young Angus calves at foot & a lifetime of production ahead of them. A lovely even line of very quiet, first calver heifers which are growing out nicely & nurturing a terrific line of calves.
