Assessor Comments	A good line of very well bred Angus Heifers, PTIC 1.5 to 3 months to MILLAH MURRAH blood bulls, that will make excellent future breeders, with the breeding potential to develop into large-framed cows. Heifers are starting to clean up well in the coat with the warmer weather & are presenting in fresh, forward condition. These lovely quiet heifers are a very even across the mob, with shape & softness in abundance, & are comprised of 9 vendor bred heifers, with the balance being one-mark Bannaby Angus heifers purchased ex CTLX Blue Ribbon sale. These heifers are well balanced, exhibiting very good body length & depth, which will develop even further over the next 6 months, before they calve down in Autumn to quality calves. Heifers are quiet & well handled, & would suit the most discerning buyer looking for top quality Angus females with placid temperaments, to start a new herd or compliment an existing Angus breeding operation. Quality heifers with a lifetime of production ahead of them.
