	Quiet: 5 head Slightly Stirry: 3 head Cows move easily when handled correctly. Respond best from horseback or motorbike. As breed would suggest, these cows could become elevated in pace if handled incorrectly or at a fast rate. These are cows with very young calves showing a strong sense of protection as is their motherly nature but given time, move off well. Cows were settled in crush when being weighed but did exit crush quickly and settled well once reunited with calves.	Quiet: 5 head Slightly Stirry: 3 head	Quiet: 6 head Slightly Stirry: 2 head
Handled With	Bikes , Dogs , Horses , On foot , Vehicles		
Assessor Comments	Fertile, productive cows that milk very well and have been producing slick skinned calves grown out to trade weights. This is a portion taken from the mob of the earliest calving cows purely to reduce numbers in what has been a very trying season. Cows present well in forward condition.
