Assessor Comments	Outstanding group of 14 x 14 full blood KO Angus heifers and calves. This presents an opportunity to purchase a complete of 2021 drop line of genuine vendor bred herd replacements, only been sold due to change of operation. Heifers are large frame in good condition and are doing an exceptional job of their calves. Calves are considerably good weight for their age being 4-5mths of age at 221kg average. Vendors have been using KO Angus bulls for the past 8 years, looking at major traits of weight for age and fertility. Angus heifers have been rejoined for a 66 day period to commence calving 22/4/25. Please not 1 calf was marked at assessment. These Angus heifers and calves come with my highest recommendations and would suit any operation.
