	These cows were good to handle in the yards and through the race and crush. They are generally quiet with three cows who were slightly agitated in the crush and would not settle. They then exited quickly. In the larger yards they were very settled for photos and videos even though it was during a storm.

Assessor Comments	A good to very good quality line of young PTIC Angus cows. These are a mix of purchased cows and vendor bred cows that were dry and in calf at preg testing. Four were purchased from 3R Angus sale and are sisters to the cows and calves in this sale, two were purchased from Gilmandyke Angus sale in Aug 2023 with the balance vendor bred. They are vet PTIC 4 - 5 months in calf to either a Raff Angus bull or to Tex Angus Korporal Q383. A small mob of cows with a tight PTIC period that suit to take and calve down.
